Clearing the Air.

Voters have been misled on the Fishing Vote by confusion (may be deliberate) of linking The Fishing Party with the Shooters. The Fishing Party is not and has never been part of the shooters.

It is an independent political party intent on representing the fishing community with a voice in politics. There may be some shooters who go fishing but there is a majority of the 1 mil plus anglers in NSW who do not shoot or associate with guns who also believe that fishing is a more renewable resource than hunting elephants. We recommend for the best vote for fishing is just place a 1 in Group O and 2 in Group A above the line for the Legislative Council as can be viewed at www.thefishingparty.info
